SUBJECT: Legislative Counsel Journal Entry

1. As the result of Mr. Martin's query to you regarding the subject of this memorandum, [REDACTED] past activities, and possible use by the Agency, were investigated by my staff with the following results.

2. The attached 1962 letter from Mr. Isaac Patch (Director, Special Projects Division, Radio Liberty Committee) is a well defined outline of Radio Liberty's association with [REDACTED] during the 1950's and early 1960's. [REDACTED] background and knowledge seem to be limited in scope to the activities of a particular ethnic group inside the USSR on whose behalf [REDACTED] has spent much time and effort. Although [REDACTED] was never directly employed by the Radio Liberty Committee, he has been given a good deal of encouragement in his efforts by the Committee.

3. Queries made by my office reveal that [REDACTED] has never been employed by the Agency or any of its predecessors.

4. I suggest Mr. Martin be informed of our knowledge of [REDACTED] in the context of the above, stating simply that [REDACTED] is well regarded by people interested in his field as a sincere anti-communist patriot whose past activities were much appreciated by those who are attempting to promote a more democratic existence for suppressed peoples of the world. Unfortunately, however, there is nothing available abroad at this time
